June Calendar	11

The growth mindset theme for the month of June is "becoming is better than being."

Becoming highlights the ongoing growth mindset process of learning and evolving as a person. Individuals actively try to improve themselves and achieve greater potential. This means embracing challenges and accepting failure as an opportunity to grow. This also means pushing yourself to reach new levels of skill and knowledge. The growth mindset winners for this month were selected because they persevered throughout the school year even though many aspects (academically or socially) may have been challenging.

Principal's Message

Wahe Guru Ji Ka Khalsa, Wahe Guru Ji ki Fateh.

Dearest Parents/Guardians,

It's hard to believe we're nearing the end of the 2024–2025 school year. As we approach this important milestone, we want to extend our heartfelt thanks for your continued support. Your dedication and involvement have played a key role in making this year a success.

As the academic year wraps up, we'd like to remind everyone that our annual School Awards Ceremony will take place on June 25th. This special event celebrates the accomplishments of our students from Grades 1–8. The ceremony schedule is as follows:

- Division 1 (Grades 1–3): 9:00 AM – 10:15 AM
- Division 2 (Grades 4–6): 11:00 AM – 12:00 PM
- Division 3 (Grades 7–8): 1:00 PM – 2:00 PM

Parents of students receiving awards will be contacted directly by the teacher with further details to ensure they can attend and celebrate with us.

Students receiving awards in Grade 9 will be recognized during the Grade 9 Graduation event on June 24th as we bid a warm farewell to our grade 9 students as their time at KSC comes to an end and they begin high school journey. We wish them all the very best! The grade nine homeroom teachers will be sending out further details closer to the date.

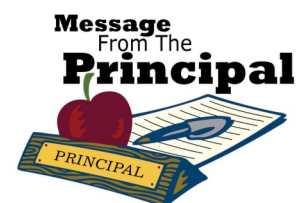

We also want to send a heartfelt congratulations to our youngest students—the kindergarten students—who will be having a special celebration on June 20th. The kindergarten teachers will be sending out more information regarding this event to the kindergarten families.

We are truly grateful for what has been a fantastic year. It has been an honour to witness the growth, achievements, and development of our students. None of this would be possible without the combined efforts of our dedicated staff, supportive parents, enthusiastic students, and committed board members.

Let's close out this school year with pride and joy, knowing that we've made a meaningful difference in our students' lives.

Thank you once again for your unwavering support.

~ Mrs. Zaseybida

Khalsa School Uniform Information

In preparation for your child(ren) for the 2025-2026 school year, please see the uniform vendors available for you to order school uniforms from. Uniform policy adherence will be strictly enforced, requiring all students to have all items of their uniform. Purchasing uniforms from either vendor is mandatory as all items must feature our KSC logos to ensure uniformity among students.

Required Uniform Items for the 2025-2026 School Year:

- White dress shirt (long or short sleeve with collar)
- White polo (long or short sleeve)
- Navy blue pants
- Cardigan or sweater vest
- Navy blue tie
- Navy blue ramal (head covering)

Gym Strip for Grades 7-9 (with KSC logos):

- Navy blue t-shirt
- Navy blue basketball shorts or sweatpants

Additionally, all students must have a pair of all-black indoor shoes, with proper grip for gym class. Outdoor shoes can be of any color.

We are collaborating with two vendors to offer you a choice. You may select either vendor to purchase uniforms. *Unfortunately, we will not be able to go ahead with the uniform open house at KSC as previously mentioned.*

Swimming for Division 1

Our Kindergarten to Grade 3 students are excited to participate in the YMCA swim program. The Saddletowne YMCA will host a swim program for two weeks with Gr 1-3 and Kindergarten class will be taking part for one week. The activity fee paid at the start of the school year covers the cost of this program. We would appreciate it if you could help us out by volunteering. Please fill out the form provided by the homeroom teacher. Homeroom teachers will contact you accordingly, if they require your assistance. Please make sure that your child wears their swimwear underneath their casual clothes to school so that changing is easy. Please ensure students bring a towel and a bag to put their wet clothes in after they are done with their lesson. Thank you!

*Students in Grades 5 will be present for regular school hours during the exam weeks.

Preparing for Exams: In addition to preparations at school, it is very important that students are also reviewing and studying for these exams at home. Here are suggestions to help you study:

- ☐ Review a little each day. Focus on one subject each day
- ☐ Review notes taken in class.
- ☐ Reread important sections of the textbook, if applicable.
- ☐ Make study cards with important definitions.

Summer Learning Loss Prevention Tips:

Summer is for free time and unstructured play. However, studies suggest that learning loss can occur

1. Schedule

First develop a routine for summer learning. Consider scheduling learning time in the morning, so learning gets done before the day's activities.

2. Read Every Day

Think of your child's reading level. See if you she can maintain that level of comprehension *if not* improve it over the summer. Decide how much your child needs to read every day on his own. This depends somewhat on your child's age but I suggest at least 10 – 20 minutes per day.

3. Practice Sight Words

Sight words are those words like “and” and “the” that kids need to know at a glance so their reading becomes fluent. Find free word lists online.

Think beyond flashcards when learning sight words. Make scavenger hunts around your house or in books. Play games. Write sight words with unusual materials like play dough, Wikki Stix, or shaving cream.

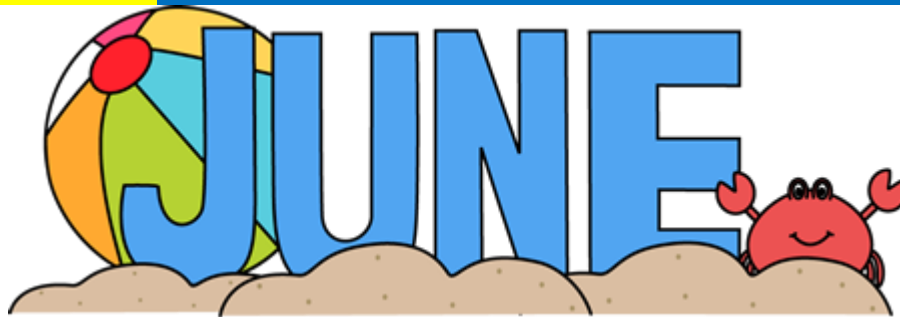

4. Practice Math Facts

How well do your kids know addition and subtraction facts? Without practice, kids will lose the facts they've learned. Repetitive practice of math facts improves recall time.

Buy a workbook for your child's grade level and require a page or two each learning session. This way you don't have to invent the curriculum, it's already prepared.

5. Write

Developing writers need to write something that makes sense. That's why it's important for kids to have *real* purposes for writing. Consider the many ways we use writing in our daily lives (making lists, writing emails, notes, journal entries) and the audience for whom we write (ourselves, friends, work). Ask your kids to do the same — to write letters to someone, keep a daily journal, make lists of what to do or buy, or write a story to read at bedtime.
